

# THE COALITION TO KILL CLEAN ENERGY JOBS.

When Dirty-Energy Washington Lobbyists couldn't get any real-life supporters to defeat comprehensive clean energy and climate legislation, they made them up instead. Washington Lobbyists actually impersonated the NAACP and Hispanic organization Creciendo Juntos in their letters to pressure legislators. Luckily it was a losing battle and now they're being investigated by Congress and others. America needs more clean energy jobs — not tall tales from Washington Lobbyists.
